

INSTRUCTIONS

How to use the Puffy D™

PUFFY D™

INSECTICIDE BULB DUSTER

HOW TO FILL

- 1 Secure rubber cap (D) prior to filling, shaking, or storing to prevent spillage.
- 2 Unscrew filling cap (B).
- 3 Load desired product in the duster using the provided funnel (C) to avoid spills. Allow for airspace so the duster functions properly.
- 4 For dust: Screw the inner tube (F) back into the underside of the bulb cap to ensure proper delivery.
For granules: Install the screen by placing it on the inner lip of the bulb. Do not reinstall the inner tube (F).
- 5 Screw cap (B) on firmly to secure before use.
- 6 To use the 12" extension tube, unscrew the tip (A). Screw on the extension tube (E) to the cap (B), then screw on the tip (A) to the extension tube (E).

HOW TO USE

- 1 Shake to loosen dust (3-5 times).
- 2 Remove rubber cap (D) & position tip.
- 3 Squeeze for controlled application.
- 4 Replace rubber cap (D) for secure storage.
